

Vuyo Nkadameng

SENIOR FULL STACK DEVELOPMENT MANAGER, ALPHA · FOUNDER, QUANTYX

TransUnion Rising Star Awards Finalist, 2026

Vuyo Nkadameng is Senior Full Stack Development Manager at Alpha and the founder of Quantyx. A 2026 TransUnion Rising Star Awards finalist, he writes publicly about data sovereignty for South African financial services.

Talk topics

Data sovereignty for South African financial services

What sovereignty means past the buzzword, and why POPIA makes it an architecture question.

What AI actually costs a regulated business

Where the real cost of AI adoption hides inside a regulated institution.

The middle management trap

Why engineering middle management loses context, and the habits that keep it.

Building RegTech in an emerging market

Lessons from building LedgerAI for South African financial services clients.
